

**ULTIMATE  
 CHIP MENU**

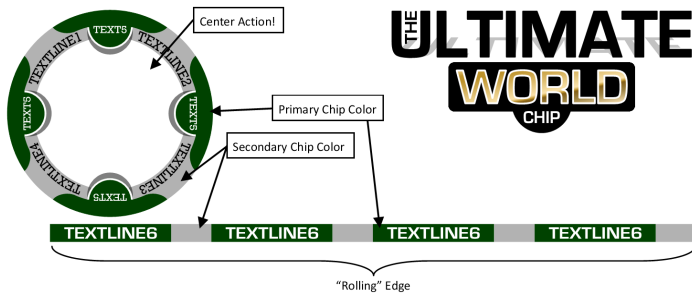

Some of the advantages of ceramic poker chips include edge-to-edge-to-rolling edge customization (not just the center), one unified chip body - not the two-piece construction (chip + inlay) of traditional chips, tamperproof and durable, and virtually impossible to counterfeit.

In addition, Custom Casino Chips offers its customers other advantages with our custom ceramic poker chips vs. our competitors, including:

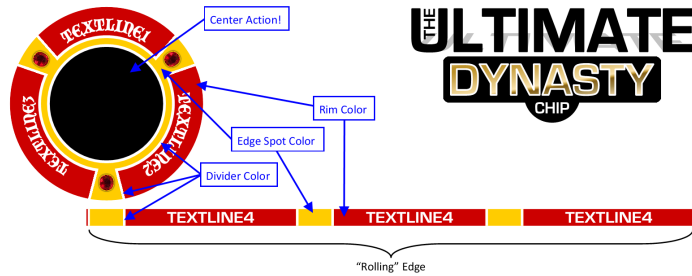

- first and foremost, we have the **lowest prices** anywhere!
  - **68 ¢ per chip** for all quantities > 1000
  - **72 ¢ per chip** for all quantities < 1000 (min. 300)
- five fully customizable (not just name insertion) EXCLUSIVE to our company, created by our designer (below)
- no complex table of art fees (free customization to our templates)
- free customizable "rolling" edges too, with aligned edge spots

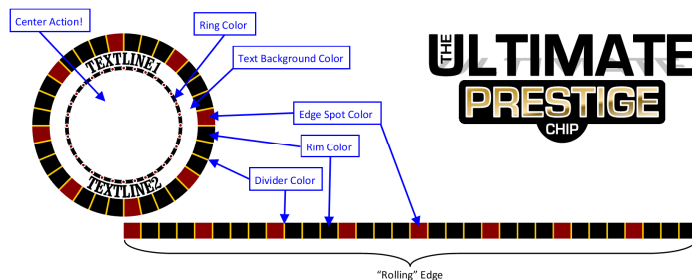

Our variation on one of the most popular and versatile chip designs in the market, the Players chip is sure to appeal to everyone at your game. Its clean, sharp lines perfectly balances class with extravagance. 10 grams of full-color, unified ceramic.

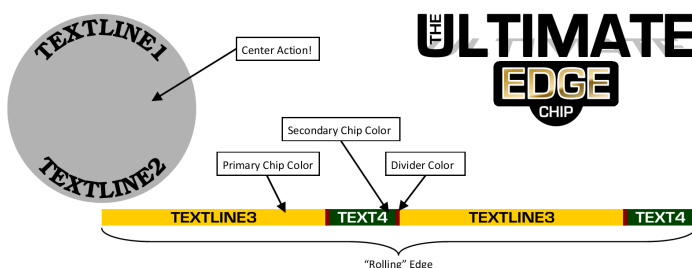

The unique and innovative World chip opens up a lot of options. The four clover-like leaves cast shadows to create an interesting 3D effect, all the while promising to bring you the greatest gift a gambler could ever want -- luck! 10 grams of full-color, unified ceramic.

The graphically bejeweled crown of the Dynasty chip is a salute to the age of kings, crosses, and conquest. The three edge spots represent the "royal family" of poker -- the King, Queen, and Jack. 10 grams of full-color, unified ceramic.

The European-inspired Prestige chip makes you feel like a certain British spy as you step up to a table in Monte Carlo. Clapping these chips in your hand is the very sound of sophistication. 10 grams of full-color, unified ceramic.

The Edge chip takes your image and lays it across the entire surface of the chip for maximum effect. Blast your players in the face with your visual shout-out and they'll be no mixed messages here! And the tri-colored rolling edge adds character. 10 grams of full-color, unified ceramic.

**Don't like our templates? No problem, we will create a brand new chip design, edge-to-edge-to-rolling edge, based on all your specifications, all for one-time fee of just \$30.**
